Route to success for Sanderson Associates

2nd June 2009

SANDERSON Associates, Yorkshire's leading independent Highway Consulting Engineers, have won a major business award.

The company, based at Grange Moor, Huddersfield, has been awarded Business of the Month, run by West Yorkshire solicitors Eaton Smith and the Mid Yorkshire Chamber of Commerce.

Sanderson Associates, founded in 1987, is a market leader in highway, traffic, transportation and water engineering - and one of the most successful independent highways consultants in the United Kingdom.

The company, led by managing director Alison France, has been rewarded for its investment in its staff and its development. Judges paid tribute to the way in which it has built on its success and experience by increasing its portfolio of clients and projects.

Alison France said: "This award is a tremendous honour for all of us. It is a tribute to my hard-working and committed staff, of whom I am incredibly proud. It is especially pleasing to receive such an honour in these challenging and difficult economic times.

"It is always gratifying - and humbling - to be recognised by one's Yorkshire peers. This award will be highly prized by our staff and will give us all the confidence and the optimism to tackle whatever the future has in store."

During its 22-year history, Sanderson Associates has undertaken more than 5,300 schemes in both the private and the public sectors with top names such as the Department of Transport, Leeds City Council, Leeds University, Tesco and Morrison's on its ever-increasing client list.

This success has enabled the company to expand into purpose-built premises at Grange Moor, between Huddersfield and Wakefield and close to the M1 and M62.

The Business of the Month award is open to all companies in Calderdale, Kirklees and Wakefield.
