SANDERSON Associates, the Yorkshire highways engineering consultants, has completed its 150th development project for discount food retail store Netto.

Managing director Alison France said: "The work we undertake for Netto is mostly for new store locations but we have been doing some work which has been on improving accesses to existing stores.

"We have been involved in the planning application submissions from a highways perspective, covering traffic flow, pedestrian movement, sustainability and detailed highway design work on the car parking layouts and accesses to new stores."

Sanderson Associates is currently working on 35 Netto stores across the north of England and the Midlands, including four in Leeds, two in Rotherham, one in Sheffield, one in Otley and two in Doncaster.
