

## France takes top honours at awards ceremony

Sanderson Associates won the SME Award at the Yorkshire and Humber Construction Best Practice Awards award ceremony.

Alison France FIHE, Sanderson's managing director (*pictured right*), said: "For the efforts of everyone within our company to be recognised in such a difficult

economic climate shows our efforts are recognised at the highest level.

"To be awarded the SME Award is fantastic news for our company and to be shortlisted for two other awards for which we were "highly commended" is something to which I and all our staff are extremely proud.
